

Amway™

**DELIVERING  
EXCEPTIONAL CLEANING  
PERFORMANCE  
SINCE 1961**

TRY IT! LOVE IT!  
**Cubalah**

SA8 Premium Concentrated Laundry Detergent was among the first products to be introduced by Amway and debuted in 1961, offering significant advantages over its competitors as:

One of the **1st** biodegradable washing detergents in the world.

One of the **1st** concentrated detergents for consumers, so less powder was needed per wash.

SA8 Premium Concentrated Laundry Detergent continues to deliver powerful cleaning performance today, fuelled by our patented **BIOQUEST FORMULA™**, providing a high-quality clean that's easy on sensitive skin as well as safe for you, the ones you love and the environment.

Super concentrated formula

Water soluble, effervescing crystals

Removes greasy and oily stains

No harmful residue that irritates sensitive skin

Corrosion inhibitor protects metal parts of clothing and appliances

Biodegradable and dermatologically-tested formula

**SUPER CONCENTRATED**

SA8 Premium Concentrated Laundry Detergent offers more washes per box so you use less.

**BIOQUEST FORMULA**

SA8 Premium Concentrated Laundry Detergent is powered by the BIOQUEST FORMULA and contains high active, bio-based ingredients from natural resources like coconut, citrus fruits and minerals.

**SAFER CHOICE LABEL**

The Safer Choice label indicates that the product has been tested by the U.S. Environmental Protection Agency (EPA) and does not contain chemicals that may present potential health or environmental effects.

# CHOOSING THE RIGHT DETERGENT MATTERS

The key to achieving a deep clean when you do your laundry is choosing the right detergent. There are a variety of detergent options that can meet the unique needs of your family.

## IS YOUR DETERGENT MEETING YOUR CLEANING NEEDS?

### DETERGENT STYLE

### PROs

### CONs

#### Washing Powder

- You can measure out how much you need. Economical.
- Dissolves fairly quickly for short washes.

- It is the most common type of detergent, so care must be taken when choosing one to use.

#### Washing Tablets

- It's easy to measure out the correct amount to use, thanks to its pill-like form.

- Not as effective on quick washes as tablets take time to dissolve.

#### Liquid Detergent

- Great for short, low temperature washes as it easily dissolves.

- Easy to spill and is messy.
- Easy to use too much, which may actually reduce cleaning performance.

#### Liquid Capsules

- No measuring, just sit capsule inside the wash drum.

- Messy when capsules split, and liquid is also a big skin irritant.

After deciding on a detergent, there are a host of extra cleaning agents like stain removers and pre-wash boosters that can add to cleaning performance. Just keep the following in mind:

#### Use a Pre-wash Treatment

which adds a concentrated squirt of detergent before clothes go into the wash and is a good idea if you want to target particularly dirty areas like shirt cuffs. Try the **SA8 PreWash Spray Soil & Stain Remover** which is a convenient and environmentally-friendly aerosol, safe for any washable, colourfast fabric.

#### Add a Wash Booster

which adds cleaning agents, often including oxygen bleach, to your wash and helps increase the effectiveness of your detergent. Try the **SA8 All Fabric Bleach** which effectively tackles deep-seated stains in your laundry to restore clean garments.
